3) Enter your unique username and password and click "Login".

You will be automatically taken to the variety listing where you can enter the number of each variety you wish to declare for the given period.

Important: it is advisable to enter your numbers *in blocks of approximately 40 varieties at a time*. This is to eliminate potential time out errors due to slow internet connectivity between your computer and the websites server. The processing time at the server for each user is restricted to ensure that the server can handle multiple users at the same time should the need arise.
